Efficacy

Lower back pain, dry skin, feeling of cold, neuralgia, rheumatism, stiff sholders, hemorrhoids, recovery from fatigue, heat rash, eczema, skin cracks, skin chaps, acne, and sore

Usage

When bathing (When adding this product into bathwater):

Add 3 - 10 mL of BATHHERB into warm water (100 - 200 L) in a bathtub before bathing.

When using this product for clean warm or cold water to be used outside a bath for rinsing the body: Add several drops of BATHHERB into warm or cold water (1 -2 L) and

use it as rinsing water.

* Half-full volume in the cap is equivalent to about 10 mL. Adjust the volume of BATHHERB depending on the volume of warm water accordingly.

Precautions for the use

- If the undiluted solution gets into the eye, wash out it immediately.
- If there is dermatological or constitutional abnormalities, use this product after consulting with a doctor.
- Discontinue the use of this product and consult a doctor if abnormalities including rash, reddening, itching and irritation appear.
- This product cannot be ingested. If someone ingests large volume of this product, make he/she drink large volume of water and consult with a doctor.
- Avoid combined use of this product and other bathwater additive products
- Use this product only for bathing.
- Pay attention for that this product rarely causes pigmentation and odor of a bathtub depending on its material, because the product uses natural herbal medicines.
- Do not contact the original solution of this product with plastics or marble in a bathtub and bathroom. It rarely causes stains.
- This product does not contain sulfur that damages a bathtub and bath boiler.

Precaution for the storage

Tightly close the cap of the bottle and keep it out of the reach of children. Do not store it in hot and high humidity place or under direct sunlight.

Precautions for left-over bath water

Left-over bath water can be used for laundry, but use clean water for rinsing and soaking. Do not use left-over bath water for following clothes. Coloration may occur.

- (1) Strongly softened clothes with a fabric softener
- (2) Brand-new or precious clothes

Production of this product has been approved for domestic sales in accordance with the Pharmaceutical Affairs Law of Japan.
