TSUMURA & CO.
June, 2021

First Quarter Business Results for FY 2021

(Million yen)

	FY 2020 1Q	FY 2021 1Q	YoY		1H FY 2021 plan
			Amount	Change	
Net sales	28,396	31,771	+ 3,375	+ 11.9%	59,400
Domestic	27,413	29,513	+ 2,100	+ 7.7%	55,500
Overseas	982	2,257	+ 1,274	+ 129.7%	3,900
Operating profit (Operating profit margin)	5,657 (19.9%)	6,152 (19.4%)	+ 494	+ 8.7%	8,700 (14.6%)
Ordinary profit	5,674	7,247	+ 1,572	+ 27.7%	9,000
Profit attributable to owners of parent	4,016	5,389	+ 1,372	+ 34.2%	6,900

* The 2020 results have been rearranged to the amount after applying the PPA adjustment and new accounting revenue recognition standards.

Key Points in Performance

Net sales and profits increased year on year, caused by increase of domestic and overseas sales.

Net sales	31,771	million yen	YoY	+ 11.9%
-----------	--------	-------------	-----	---------

- Domestic sales were 29,513 million yen. Overseas sales were 2,257 million yen.
- Sales of the 129 prescription Kampo products increased 7.8% year-on-year.
- Sales of healthcare products including OTC Kampo medicines increased 12.0% year-on-year.

Operating profit	6,152	million yen	YoY	+ 8.7%
------------------	-------	-------------	-----	--------

Operating profit margin	19.4	%	YoY	(0.5)pt
-------------------------	------	---	-----	---------

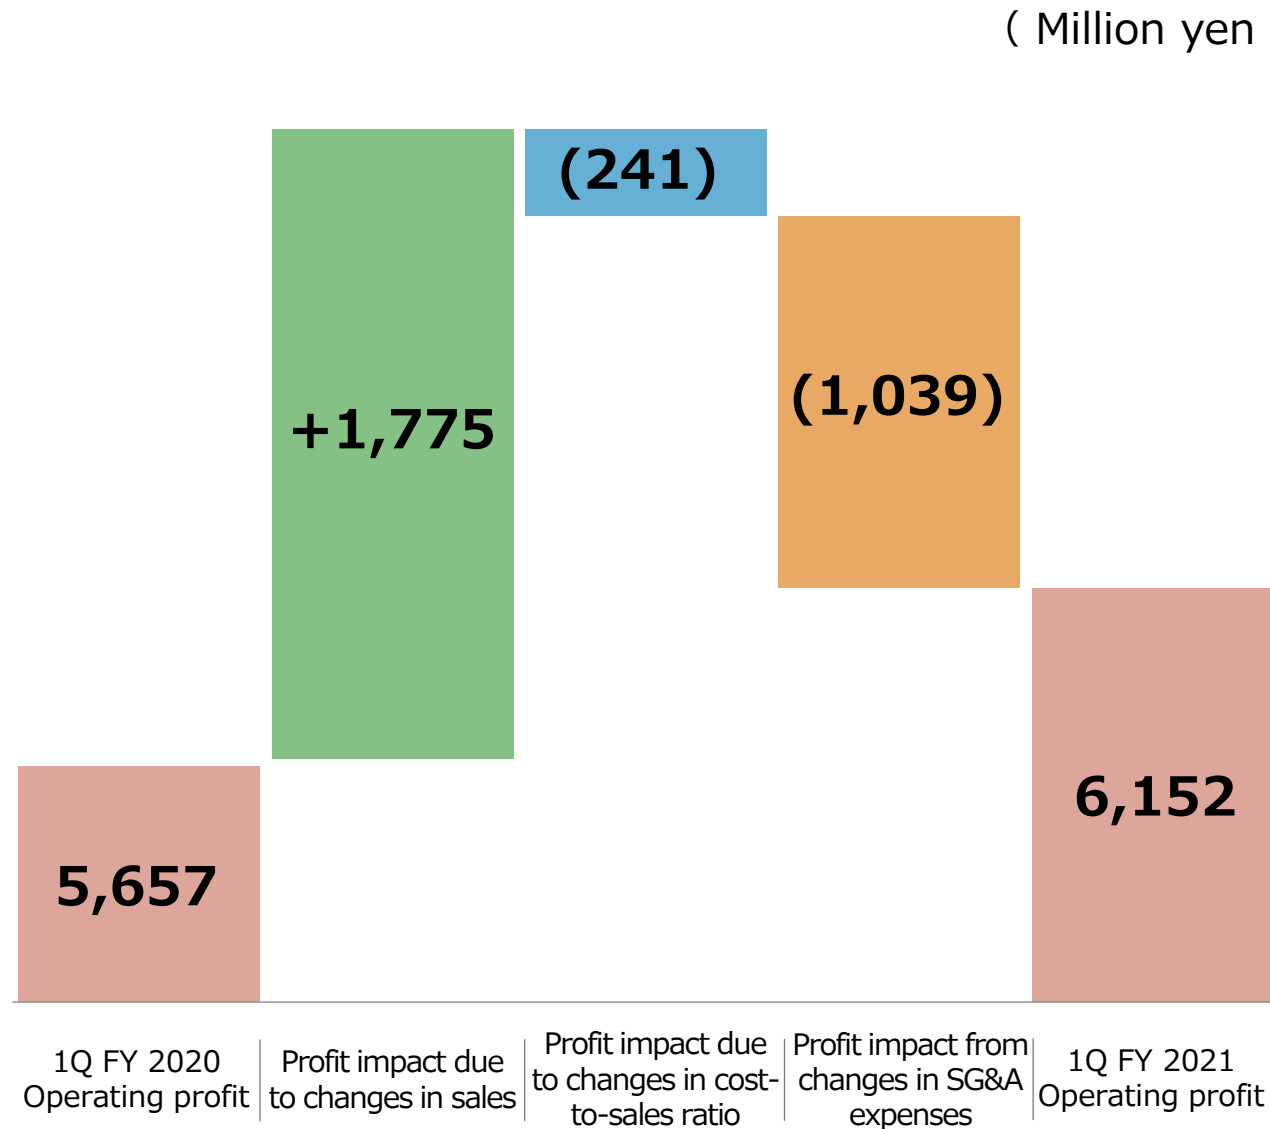

- The cost-to-sales ratio was 48.2%, a rise of 0.8pt year-on-year. The increase in the cost-to-sales ratio reflects impact from external sales in China.
- The SG&A ratio totaled 32.5%, a decline of 0.2pt year-on-year.

Ordinary profit	7,247	million yen	YoY	+ 27.7%
-----------------	-------	-------------	-----	---------

- Impact of foreign exchange gain of 836 million yen.

Profit attributable to owners of parent	5,389	million yen	YoY	+ 34.2%
---	-------	-------------	-----	---------

Factors Triggering Changes in Operating Profit (YoY)

(Million yen)

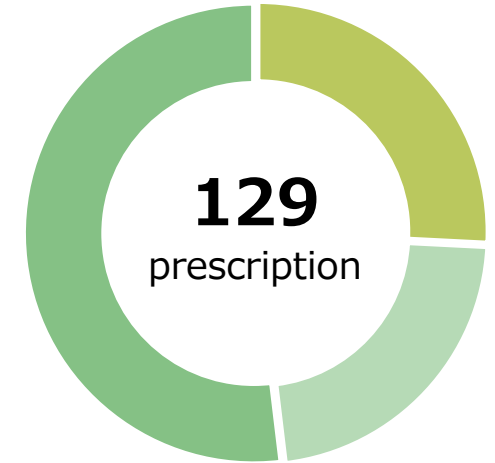

Changes in sales : Breakdown	
Domestic	+ 1,105
Overseas	+ 670
Changes in cost-to-sales ratio: Breakdown	
Sales composition (Domestic)	+ 31
Crude drug-related cost (Domestic)	+ 127
Outside sales in China (Overseas)	(399)
Changes in SG&A expenses: Breakdown	
Sales-related expense	(373)
R&D expense	(143)
Traveling expense	(136)
Other	(387)

Sales of Drug-fostering Program Formulations/Growing Formulations

(Million yen)

	Net sales Ranking	Product No./formulation name		FY 2020 1Q	FY 2021 1Q	YoY	
Drug-fostering program formulations	1	100	Daikenchuto	2,385	2,430	+45	+1.9%
	2	54	Yokukansan	1,779	1,872	+93	+5.2%
	4	43	Rikkunshito	1,665	1,770	+104	+6.3%
	8	107	Goshajinkigan	820	888	+68	+8.3%
	23	14	Hangeshashinto	313	345	+32	+10.2%
Total sales for drug-fostering program formulations				6,965	7,308	+342	+4.9%
Growing formulations	3	41	Hochuekkito	1,766	1,818	+52	+3.0%
	5	17	Goreisan	1,032	1,297	+265	+25.8%
	6	24	Kamishoyosan	1,042	1,205	+162	+15.6%
	7	68	Shakuyakukanzoto	1,131	1,201	+70	+6.2%
	10	29	Bakumondoto	812	806	(5)	(0.7)%
Total sales for growing formulations				5,785	6,330	+545	+9.4%
Total sales for 119 formulations other than drug-fostering program and growing formulations				13,582	14,739	+1,156	+8.5%
Total sales for 129 prescription Kampo products				26,332	28,377	+2,044	+7.8%

Ratio to total sales

■ Drug-fostering program formulations
25.8%

■ Growing formulations
22.3%

■ 119 formulations other than drug-fostering program and growing formulations
51.9%

* The 2020 results have been rearranged to the amount after applying new accounting revenue recognition standards.

Financial Condition/Cash Flow Position

(Note) The above forecasts were prepared based on the information available as of the date of publication of this presentation. Accordingly, the impact of risks that cannot be predicted at this time, including the impact on socio-economic activities from the further spread of COVID-19, have not been factored in. Actual earnings performance may differ from the forecasts stated herein owing to various factors going forward. We will disclose trends and conditions in a timely and proper manner should there be any changes in the circumstances surrounding our company.

Policy

- We aim to improve our corporate value by continually expanding our Kampo business and through growth investments in the China business, and by building foundations. Accordingly, we plan to implement stable dividends, taking into account factors such as medium/long-term profit levels and cash flow conditions.

Note: The FY 2021 year-end dividend and payout ratio (forecast) are an estimate based on the assumption that the dividend resolution is approved at the 86th Ordinary General Meeting of Shareholders.

80% of physicians prescribe Kampo medicine

Nikkei Medical Publishing, Inc. Survey

Proportion of Kampo products prescribed in daily medical practice

Basic policy when prescribing Kampo products

- Prescribe Kampo products and drugs independently or in combination (57.8%)
- Prescribe Kampo products when desired result not achieved with drugs (30.5%)
- Prescribe drugs, but use Kampo products if necessary (side effects, etc.) (5.1%)
- Kampo medicine treatment is first choice except for organic diseases (2.4%)

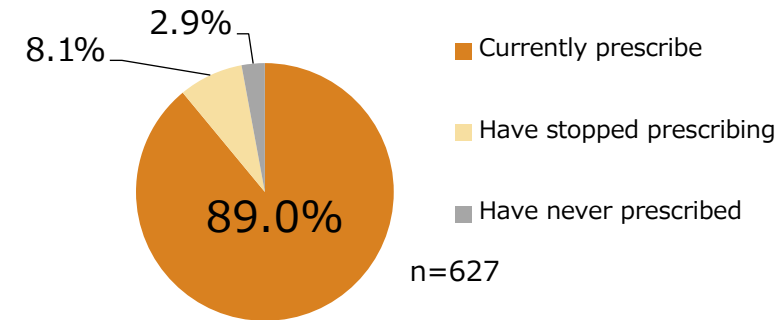

Reason for starting to prescribe Kampo products

- Limited results with only drug treatment (62.9%)
- Increase in elderly and other patients with multiple illnesses (28.4%)
- Increase in scientific evidence of efficacy announced at medical conferences (26.9%)
- Patients strongly requested Kampo products (20.5%)
- To provide holistic medical treatment that improves patient QOL (20.4%)

Drug-fostering program formulations and Growing formulations

Drug-fostering program formulations

Daikenchuto

Yokukansan

Rikkunshito

Goshajinkigan

Hangeshashinto

2004-

Looking at the recent structure of disease, the Company has selected certain diseases in fields where medical treatment needs are high that are difficult to treat with Western drugs and that Kampo products have demonstrated special efficacy for. The Company will establish a base of scientific evidence related to treating these diseases with Kampo medicine.

Growing formulations

Hochuekkito

Shakuyakukanzoto

Bakumondoto

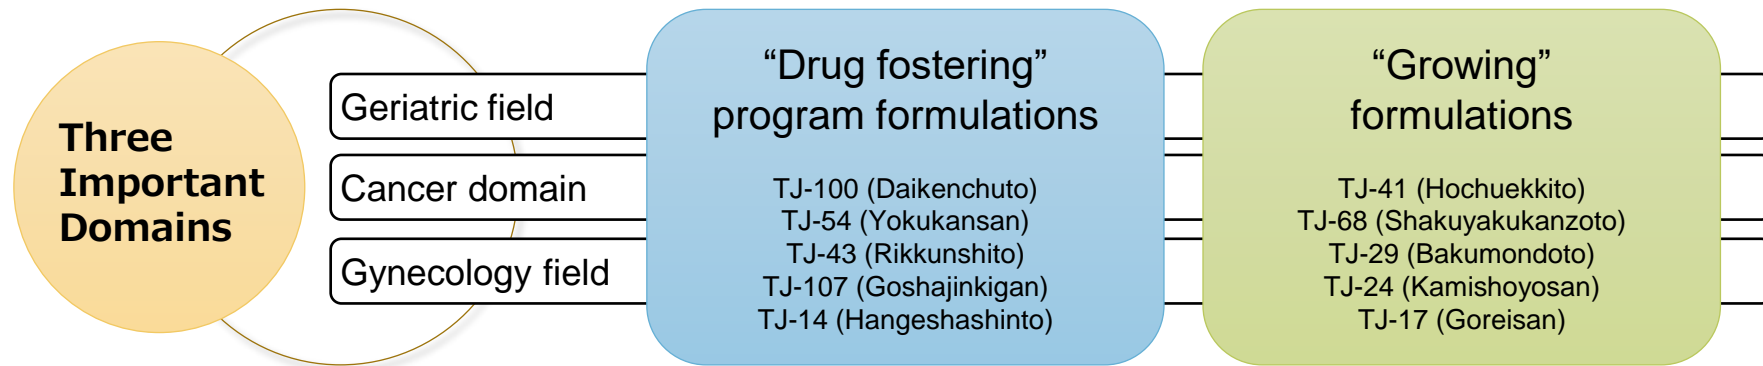

Kamishoyosan

Goreisan

2016-

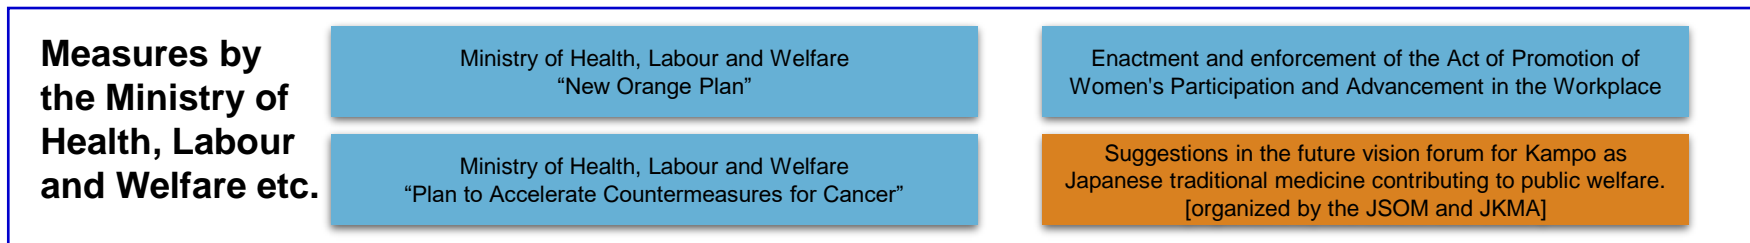

A growth driver that aims to be listed in medical treatment guidelines as a strategic formulation following the five “drug fostering” program formulations through the establishment of scientific evidence (data on safety, efficacy, etc.) in fields where satisfaction toward treatment and the contribution of medicine are low.

Growth driver and important domains

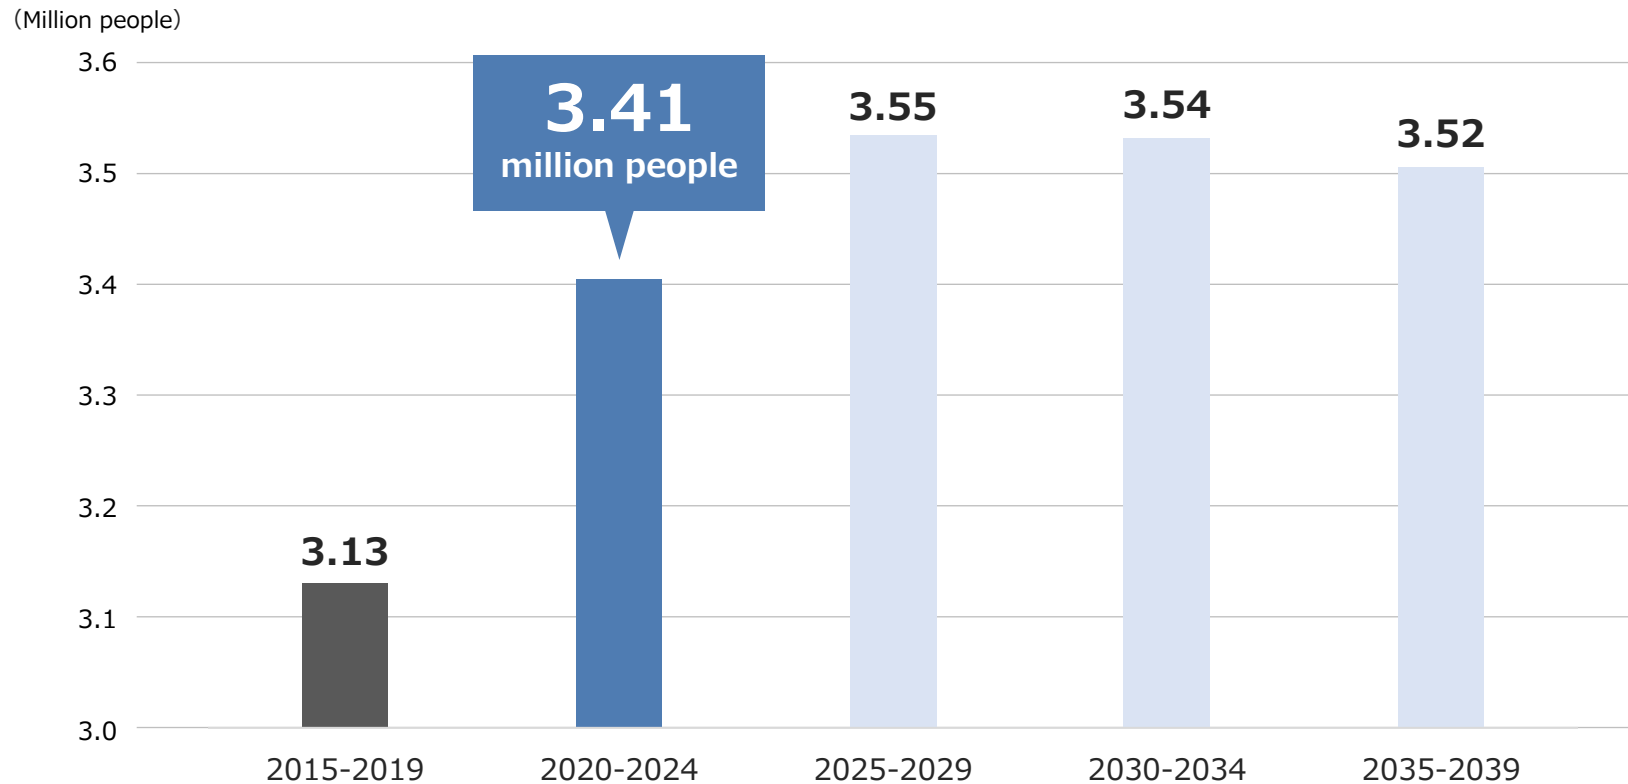

Prioritize unmet medical needs

BPSD, frailty, supportive care for cancer (postoperative dysfunction, loss of appetite, stomatitis), menopausal disorders, etc.

Business Environment : The Number of Cancer Sufferers In Japan

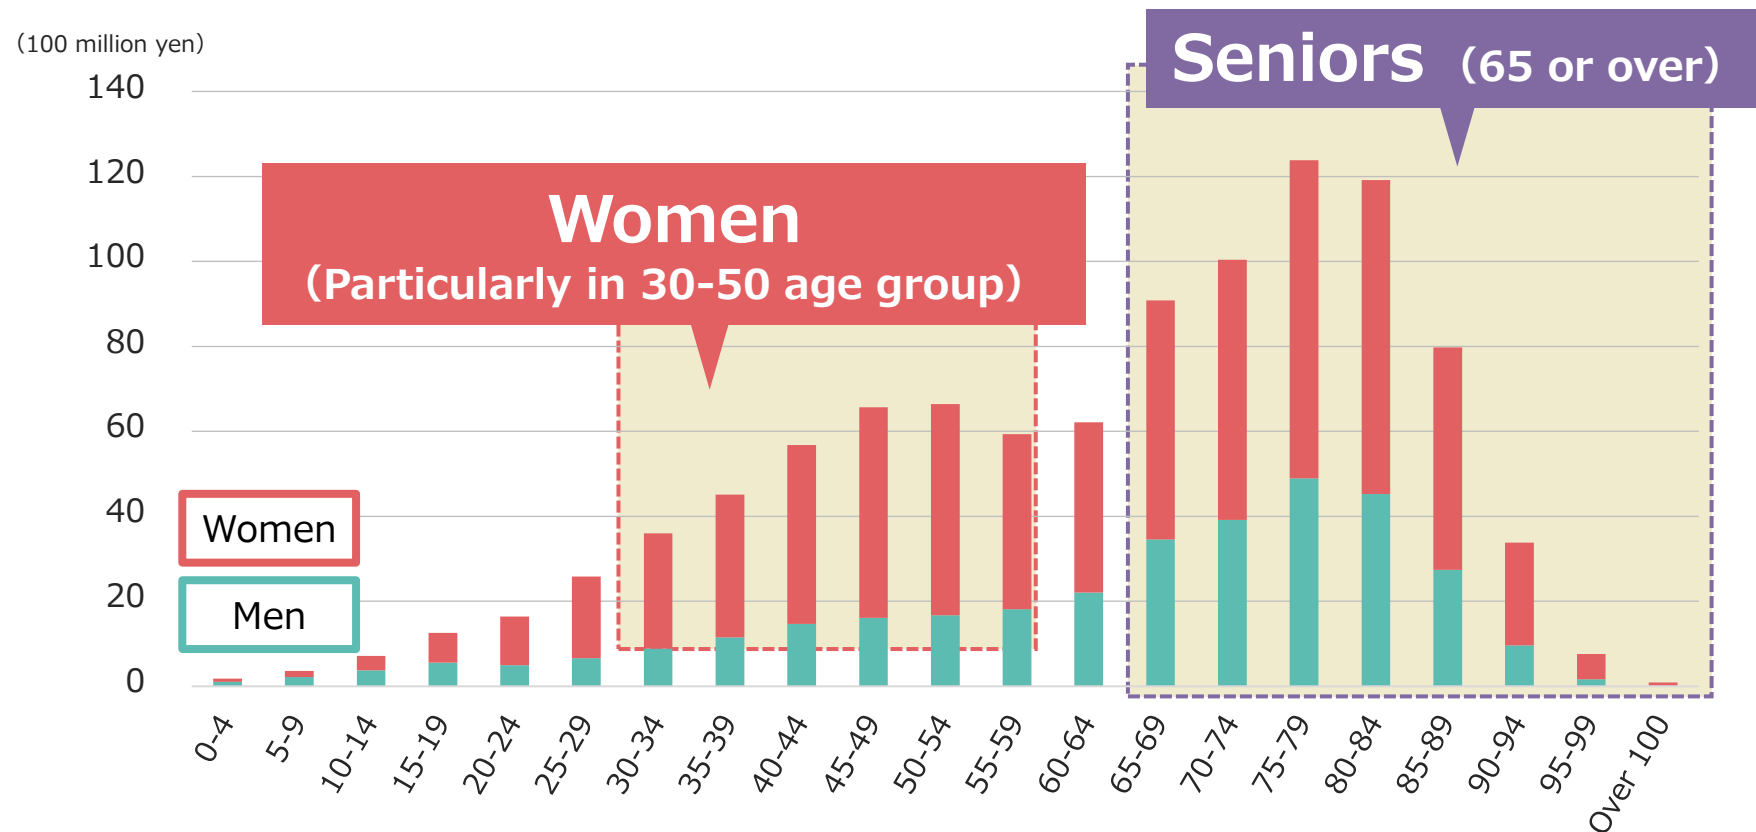

The number of cancer sufferers will increase until 2029

Source: Cancer Registry and Statistics. Cancer Information Service, National Cancer Center, Japan
The number of people suffering from cancer defined as "the number of living people who have been diagnosed with cancer within the past five years."

Business Environment: Demand for Kampo preparations for medical use in Japan

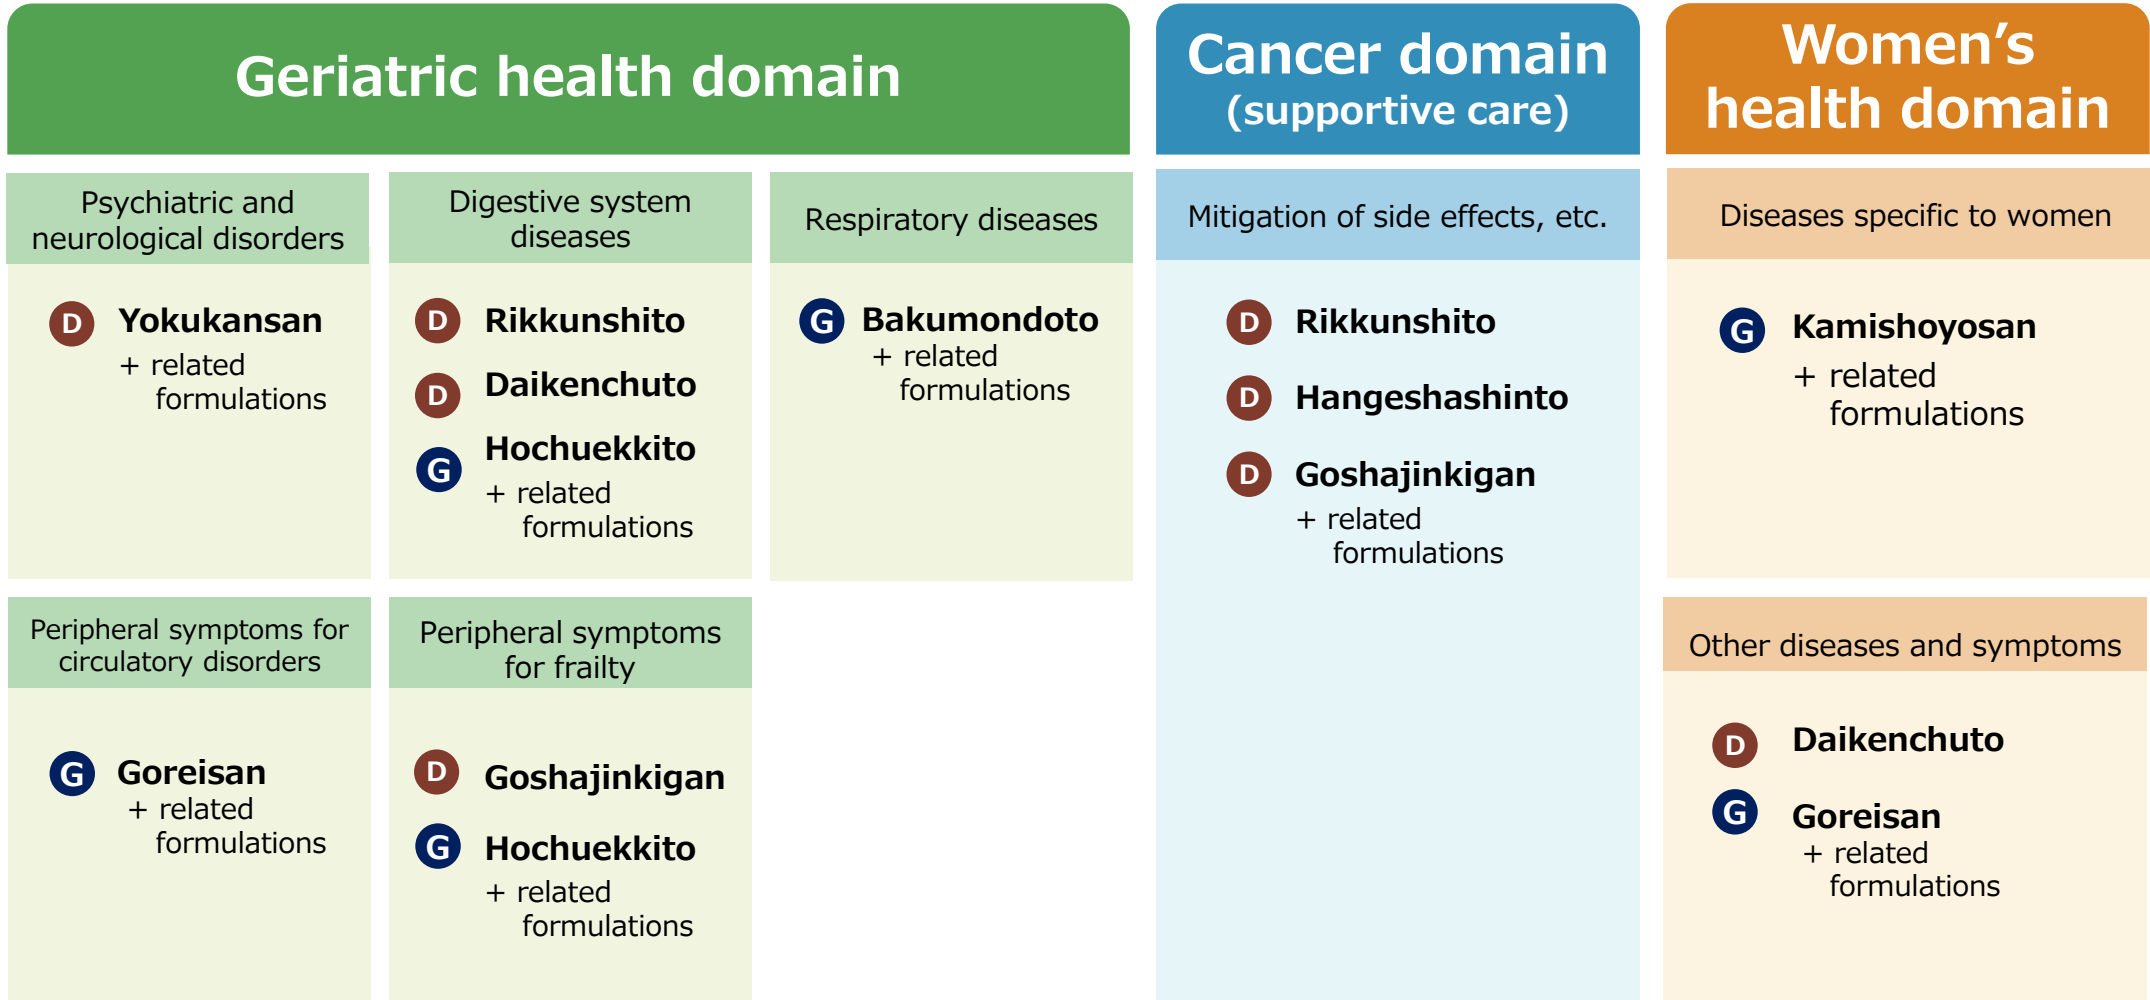

Seniors and women have high prescription ratios

Source: Third NDB Open Data by the Ministry of Health, Labour and Welfare
Calculation based on top 100 products of prescription Kampo manufacturers

Three Important Domains of Sales Activities

- Positioned geriatric health; cancer (supportive care) and women's health as the three important domains and aim to concentrate our activities in these domains
- We plan to deploy a sales approach in the drug-fostering program formulations, growing formulations and three important domains

“Drug fostering” program formulations and “Growing” formulations ➡ Publish medical treatment guidelines

Collect clinical EBM, action mechanisms, adverse drug reaction(ADR) frequency surveys, ADME, and health economic data

Maintaining a stable supply of pharmaceuticals

We strive to provide and collect appropriate information in Japan and China and other regions.
There is no problem in supplying products for the time being.

Contribution to research and development

Against the backdrop of the expansion of COVID-19, We will carry out research in response to requests for cooperation from external organizations regarding Kampo.
We will continue to cooperate with related organizations and promptly take appropriate measures.

October 7, 2020 Press conference held by the Japan Society for Oriental Medicine

Research related to Kampo treatments

- 1) Medical fact-finding investigation of COVID-19 patients registered for a retrospective study
(Dr. Shin Takayama, Tohoku University)
- 2) Treatment benefits reflecting prospective intervention in COVID-19 patients
(Dr. Shin Takayama, Tohoku University)
- 3) Preventive benefits for healthy individuals reflecting prospective intervention for COVID-19
(Dr. Takao Namiki: Chiba University)

October 9, 2020

**Yakuji Nippo
website**

Dr. Takao Namiki (Chiba University), Dr. Shin Takayama (Tohoku University), etc.

Commence large-scale clinical studies to confirm benefits of Kampo to prevent development of COVID-19, targeting 6,000 medical practitioners, mainly at Chiba University and Tohoku University

Rising expectation that Kampo will alleviate symptoms(Physicians and patients)

Insomnia (Yokukansankachimpihange,Kamikihito)

Many patients who are seniors are suffering from sleep disorders, mainly due to anxiety over infection.

Anxiety (Hangekobokuto,Kamikihito)

Increase in the number of patients claiming they suffer from anxiety in tandem with changes in the external environment

Loss of appetite (Rikkunshito,Hochuekkito)

Prescribed to patients concerned about a decline in stamina due to fatigue and a loss of appetite due to changes in the external environment

Obesity (Bofutsushosan)

Many people are stuck at home or in self-isolation. As a result many patient are concerned of obesity.

Fatigue (Hochuekkito, Juzentaihoto)

Many patients claim they cannot get rid of the fatigue after being treated for COVID-19.

Acne (Jumihaidokuto,Seijobofuto)

As many patients are wearing masks to prevent infection so there is a pronounced increase in acne consultations.

➡ **Multiple components**

Q. Will it be possible to consistently manufacture a uniform product made from natural raw materials?

For instance, even produced with the same variety of grape, taste and aroma of wine differs depending on production areas, growers and growing season.

Component analysis results for the raw material crude drug “Shakuyaku (peony)”
(Degree of deviation with the average result for paeoniflorin content)

Component analysis results for Tsumura’s Shakuyakukanzoto extract granules (prescription Kampo)
(Degree of deviation with the average result for paeoniflorin content)

Tsumura's business

~China business~

TSUMURA & CO.
August 2021

Procurement and production of crude drugs for prescription Kampo products

For many years, we have been developing mainly 「Shenzhen Tsumura Medicine (1991~) and 「Shanghai Tsumura Pharmaceutical (2001~) as a procurement and production base for crude drugs for Kampo preparations for Japan.

In the future, we will utilize the know-how we have cultivated so far to further develop our business.

We aim to become a trusted traditional Chinese Medicine company in China.

In 2016, Tsumura China Inc. is established as Regional oversight functions for Group companies in China.

In 2017, Capital and business alliance with "Ping An Insurance", one of the four major insurance companies in China.

In 2018, Ping An Tsumura is established, a joint venture with Ping An Insurance.

Full-scale entry into the Chinese business on the occasion of a capital and business alliance with Ping An Insurance in 2017.

➤ **Contributing to China**

**Further development of the traditional Chinese medicine industry
⇒ Contribution to the health of the people of China**

➤ **Stable procurement of crude drugs**

**Contribute to improving the quality of crude drugs and to the preservation of crude drug resources
⇒ Stable procurement of crude drugs and raw materials for crude drugs**

- Give back to China for nearly 40 years of procurement of crude drugs
- The market for traditional Chinese medicine in China is valued at around ¥10 trillion
- Traditional Chinese medicine, as with Kampo, originates from plants and is well recognized
- China's government is easing up on restrictions on foreign investment

- Leverage Tsumura's knowhow
- Ample offers from Chinese citizens and companies to enter the local market

Decided to entry into the Chinese market

August 2016 – China State Council Presentation, “**Healthy China 2030**” Plan Outline

Background – Change in spending views due to aging population issue and increased income

Main Goals

Expand the
scale of the
health service
industry

Extend average
lifespan and
reduce the
death rate

Improve
medical
standards

Complete
implementation
of the health
insurance
system

Improve
environment

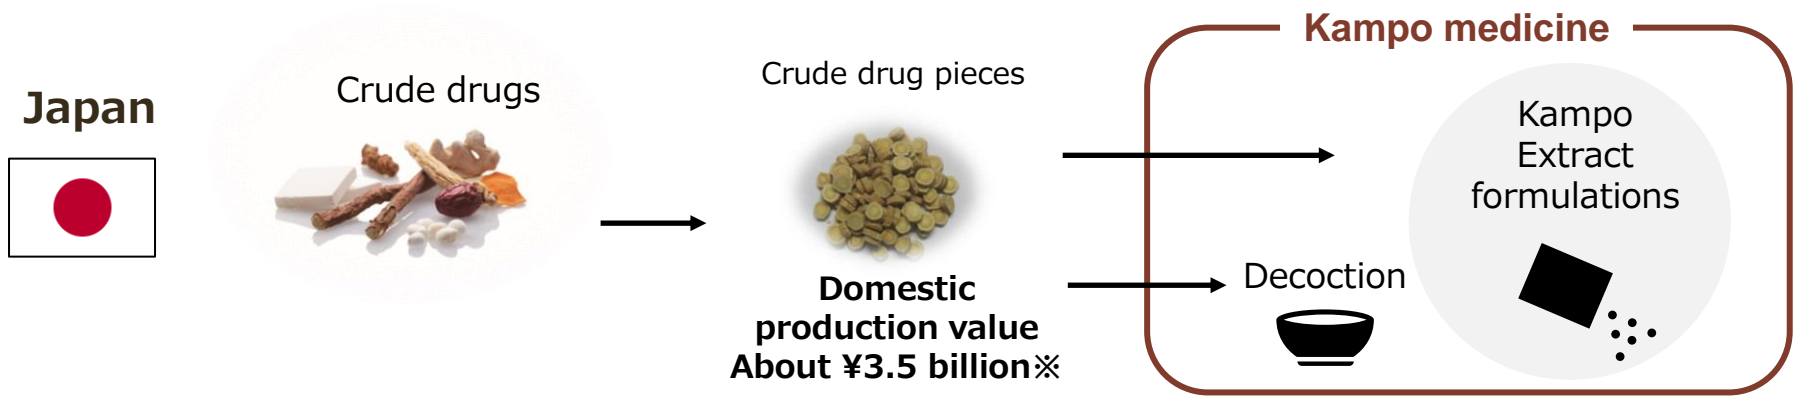

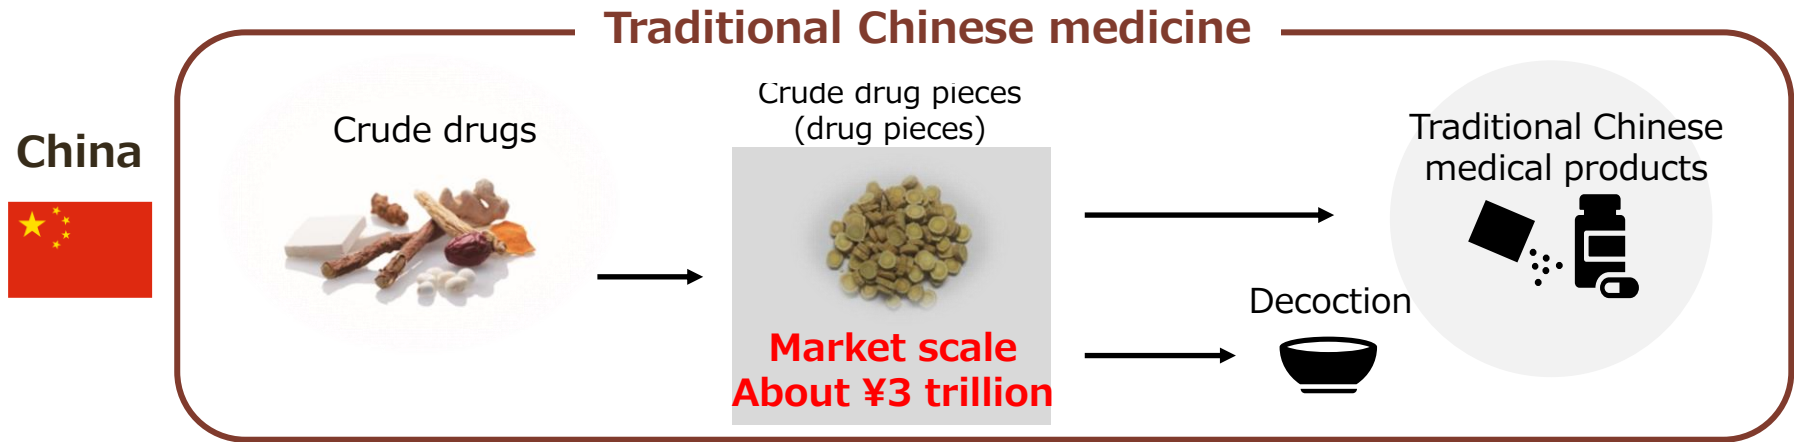

In relation to medical care

Focus on both contemporary medicine and traditional Chinese medicine, normalize and increase traditional Chinese medicine production, and engage in the theoretical study and medicine development

July 2017 – Enforcement of the Medicine Law of the People’s Republic of China

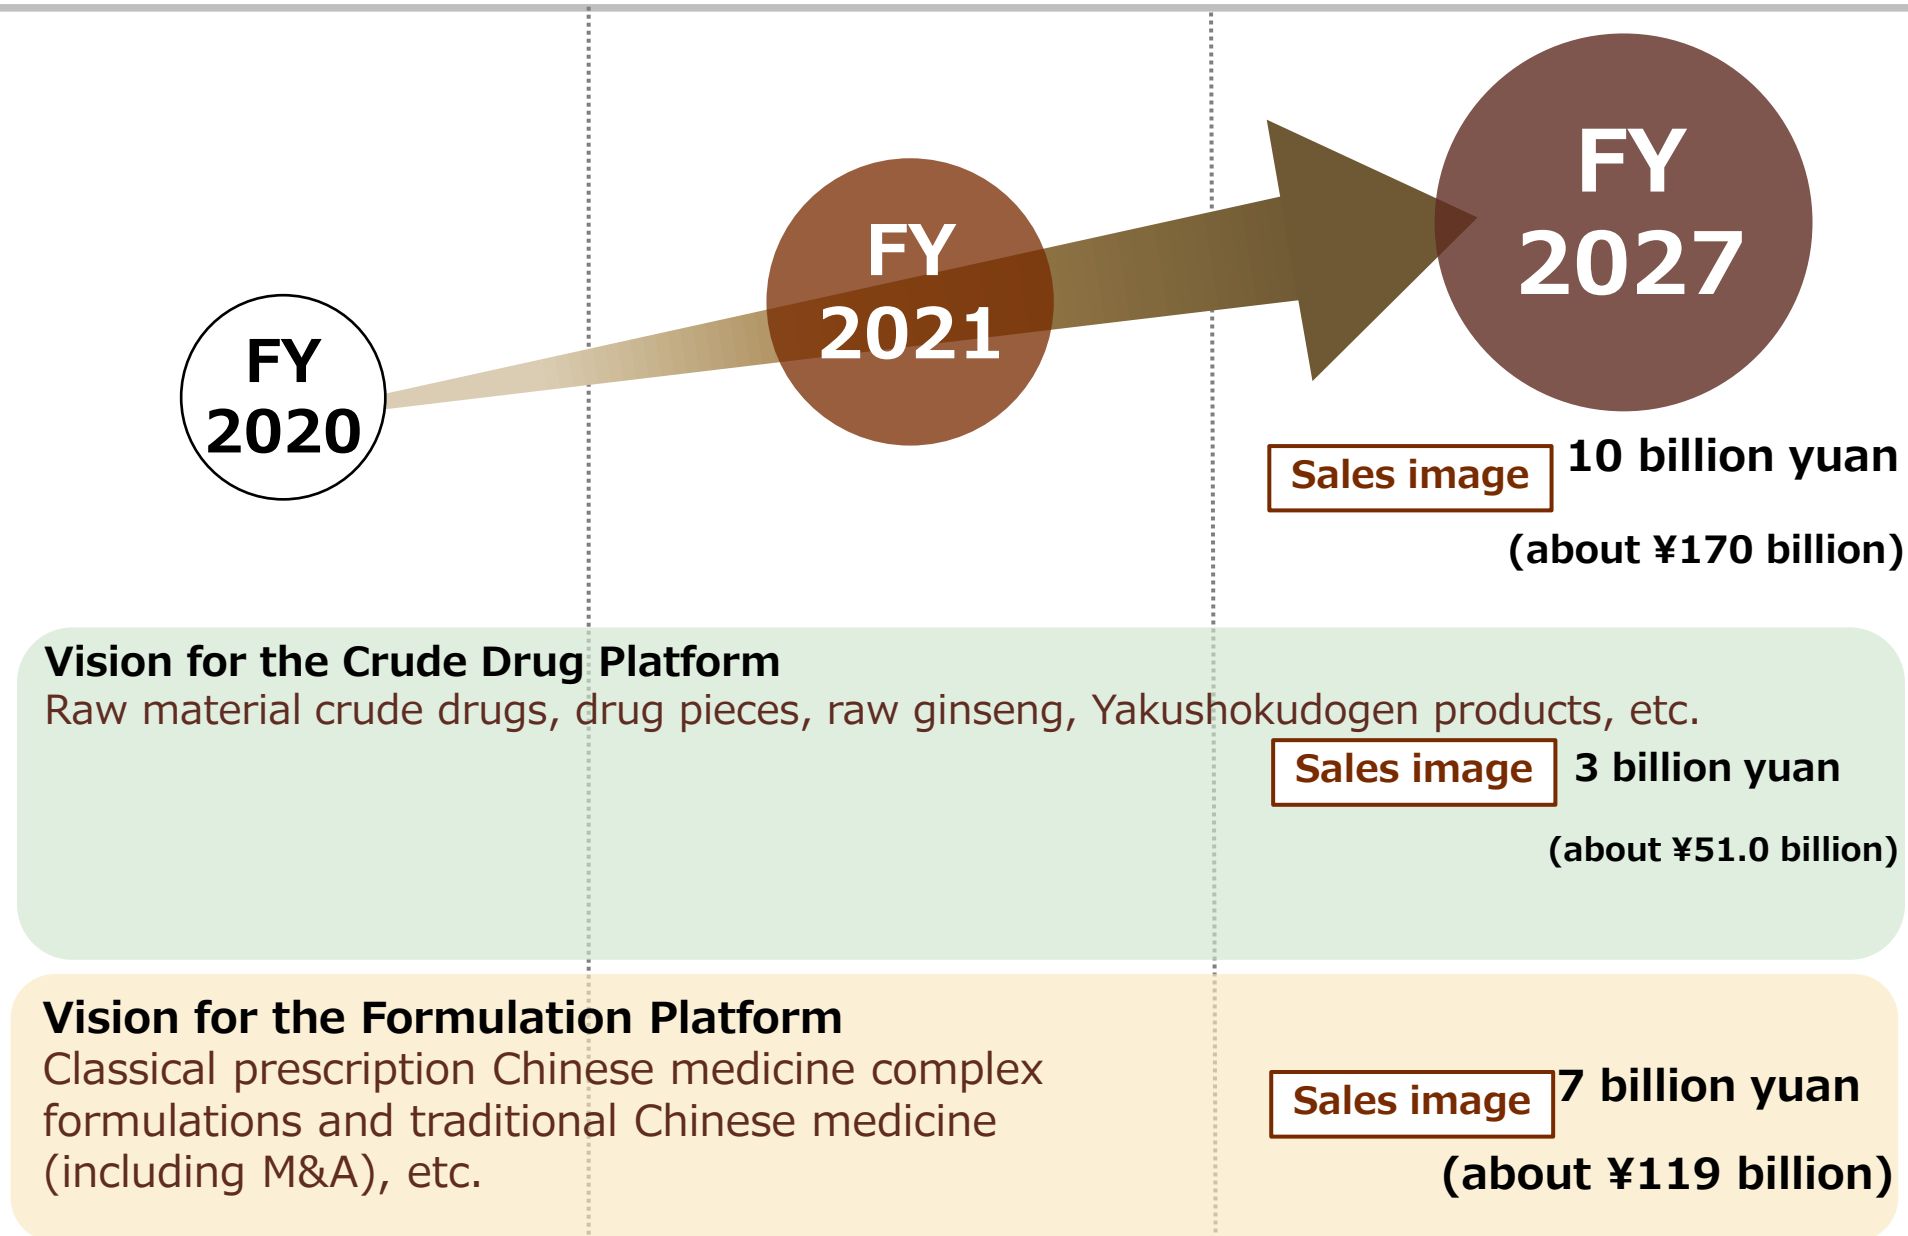

Crude Drug Pieces (Drug Pieces) in China

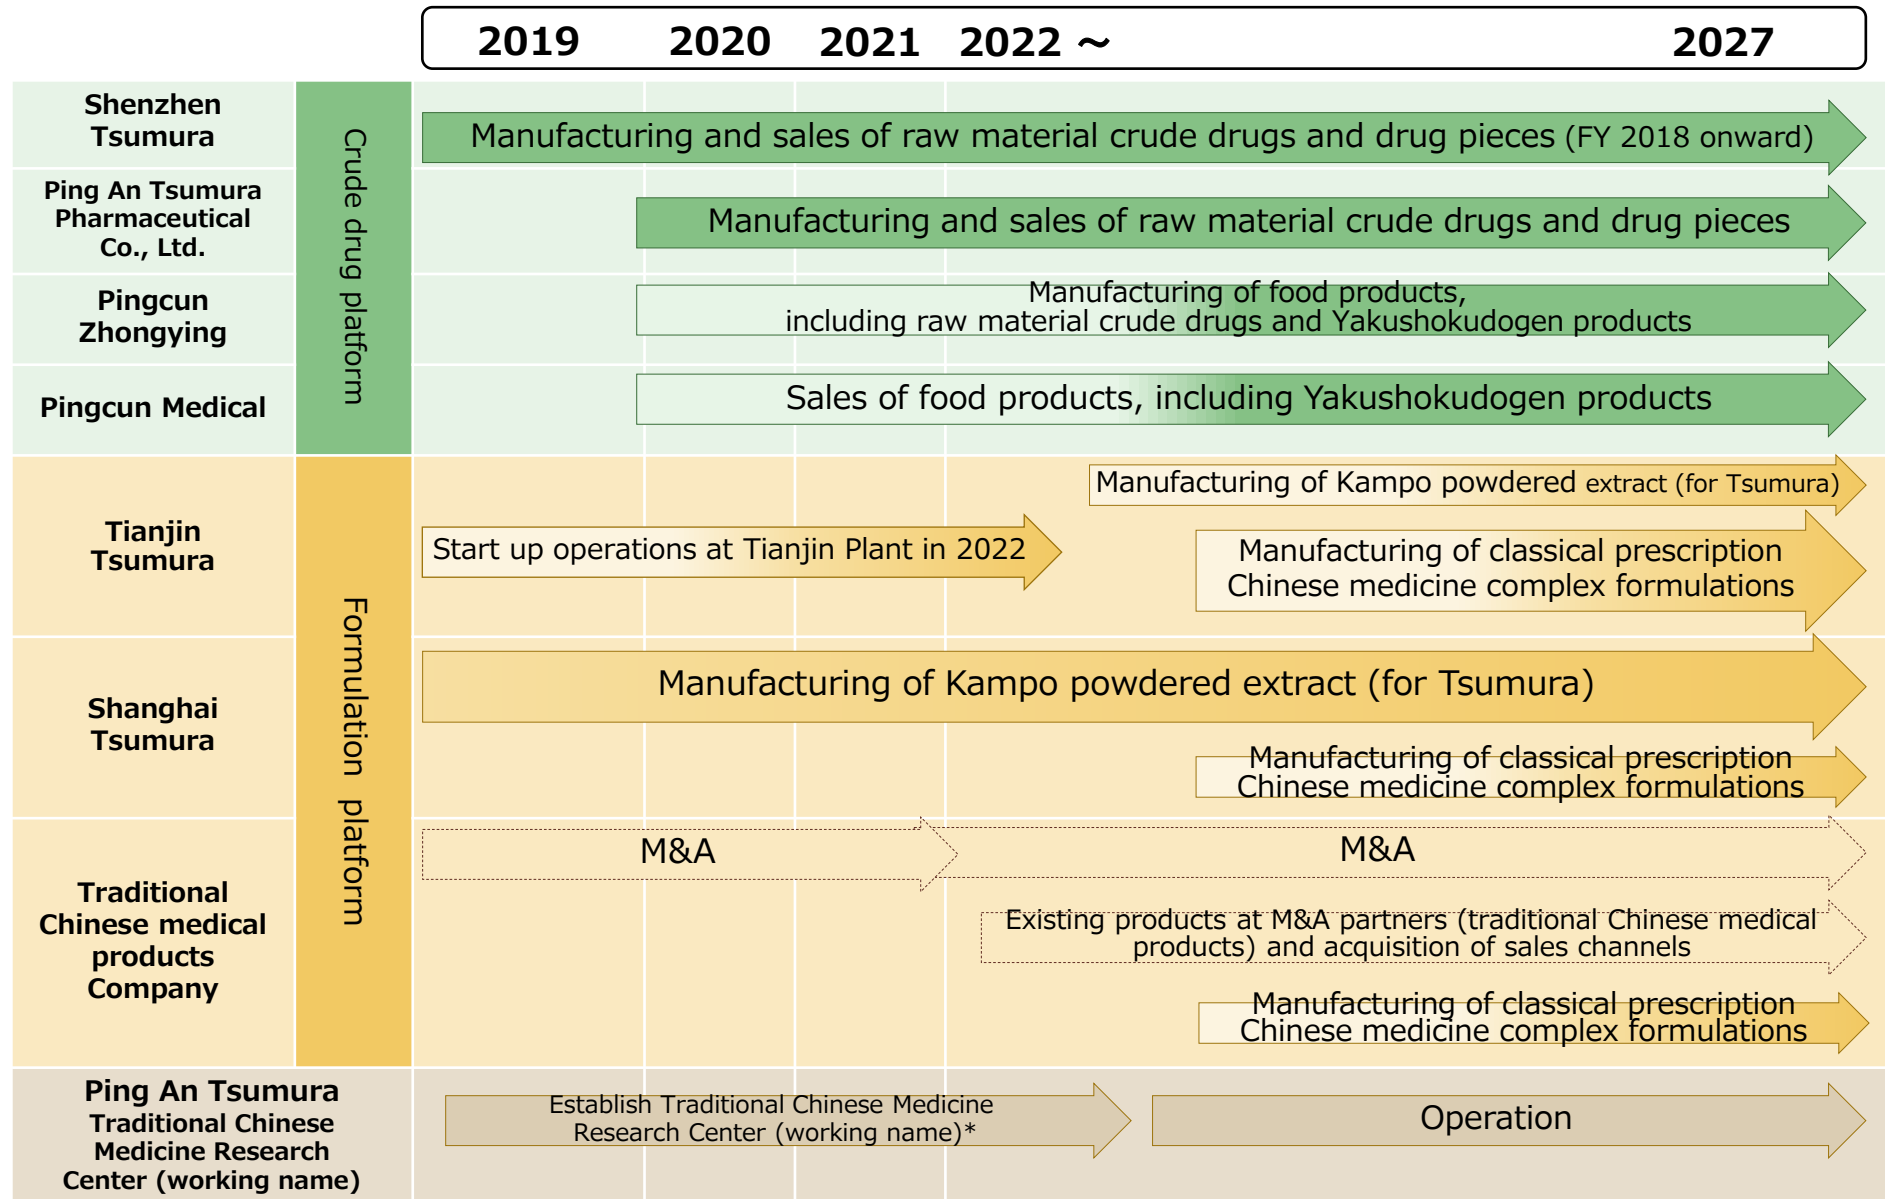

Terminology	Definition	Corresponding terminology for Kampo medicine (Meanings are not always the same)
Chinese medicine	Medicines used in traditional Chinese medicine (traditional Chinese medical products, drug pieces, etc.)	Kampo, crude drug pieces, crude drugs
Drug pieces	Same meaning as crude drug pieces, Use as a decoction	Crude drug pieces
Traditional Chinese medical products (Manufacturing of classical prescription Chinese medicine complex formulations)	Drugs in the form of granules, pills or other shapes based on the theories of traditional Chinese medicine (Drugs in the form of granules, pills or other shapes based on old traditional Chinese medical books)	Kampo extract formulations, crude drug production (Kampo extract formulations)

*Source: Production statistics, including for Kampo formulations, Japan Kampo Medicine Manufacturers Association

*Exchange rate: ¥17/yuan (as of the time of the release of the Vision)

Roadmap for the Chinese Business Vision (image)

*Change name to Traditional Chinese Medicine Research Center (working name)

On February 28, 2020, a news release titled “Tsumura Announces Conclusion of Agreement Regarding Acquisition of Equity Interest in Tianjin China Medico Technology Co., Ltd. by Ping An Tsumura Inc.” was put out. The deal was concluded in March.

- Purpose of capital tie-up
 - 1) Strengthen the stable supply system for crude drug raw materials for export to Japan
 - 2) Expand China business by acquiring experienced personnel in the Chinese medicine industry
 - 3) Strengthen stable supply system for crude drug raw materials for use by China business (traditional Chinese medicines, etc.)

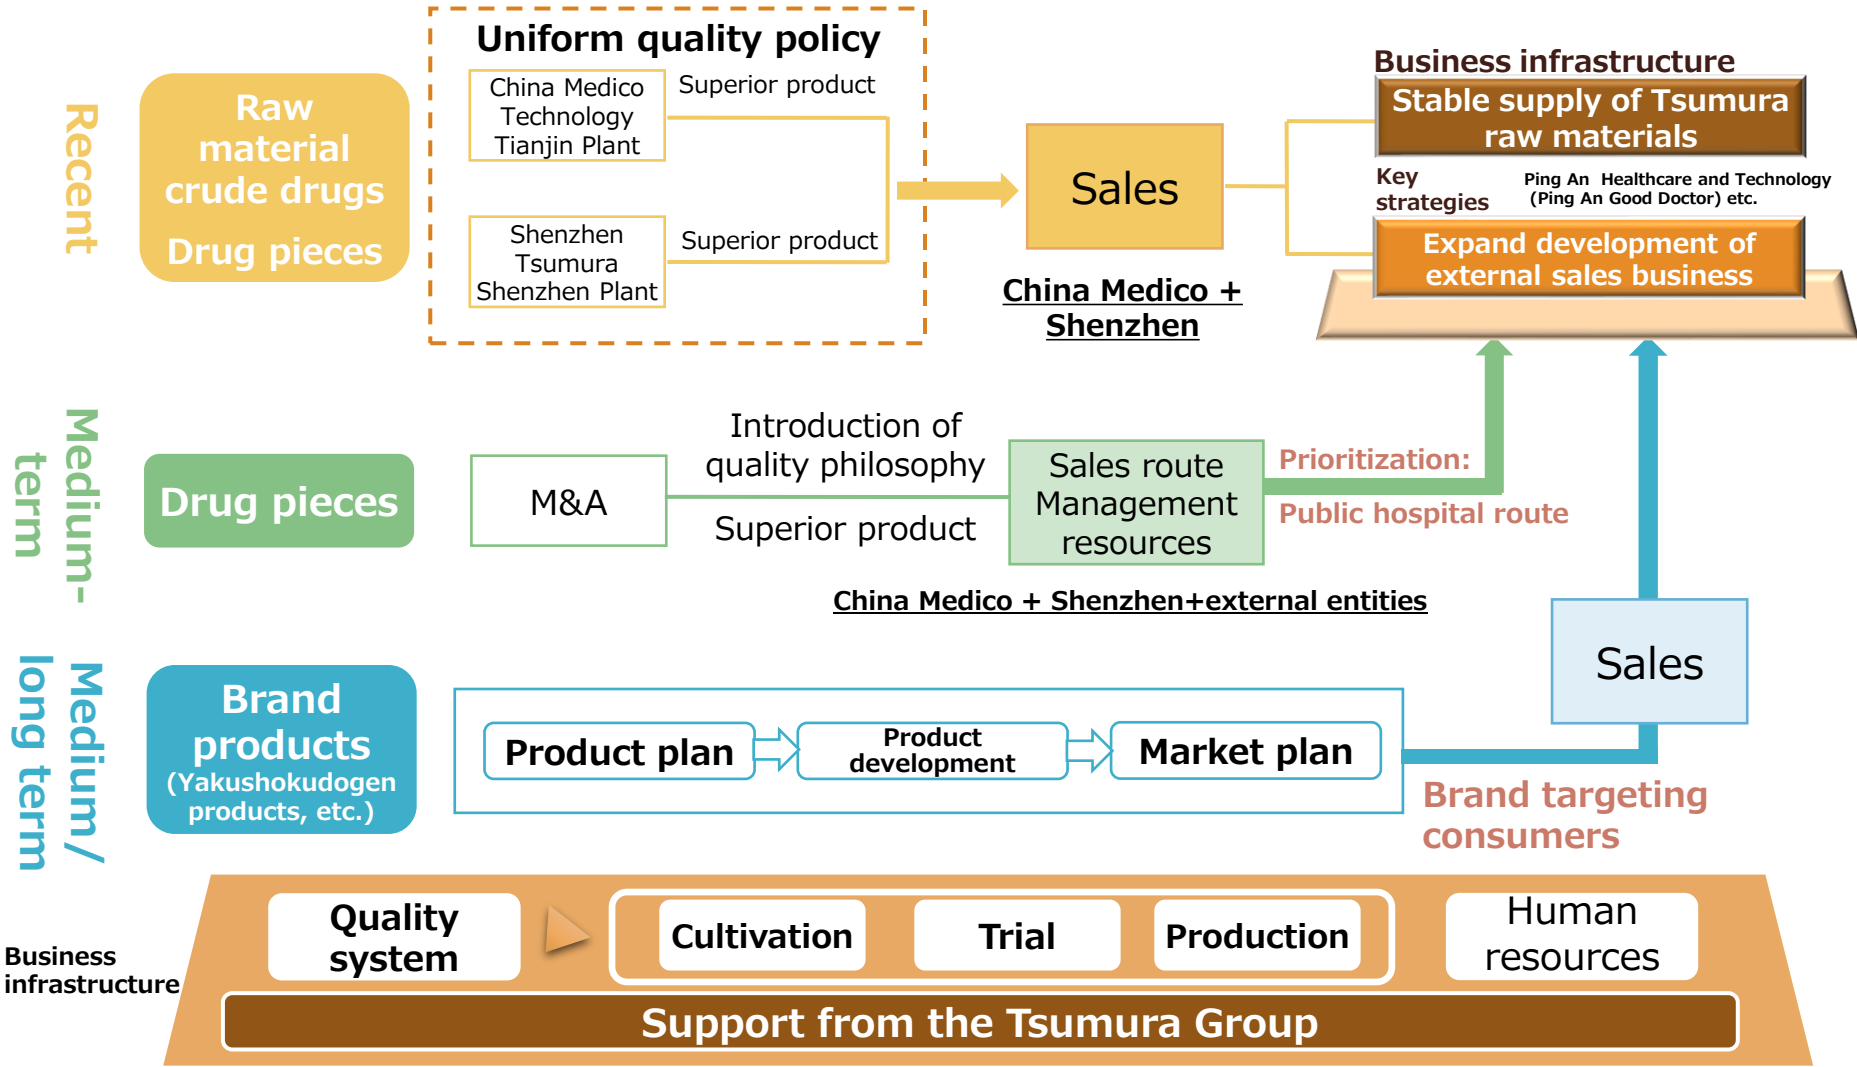

Strengthen stable supply system of crude drug raw materials by gathering knowhow from the Tsumura Group and China Medico Technology

Promote expansion of the traditional Chinese medicine (crude drug raw materials) and drug pieces (chopped crude drugs) in China to establish a solid position

Future Outlook for the Crude Drug Platform Business

Crude drug platform business vision: Envisage sales in China of 3 billion yuan (roughly ¥51.0 billion)

Entry into traditional Chinese medicine market

- 1) Plant construction
- 2) Pharmaceutical manufacturing license
- 3) GMP
- 4) Manufacturing, sales, etc.

(1) Proprietarily acquire license

Implementing (1) and (2)
to achieve early entry

(2) Business partnerships and M&A with traditional
Chinese medicine manufacturers

Potential business partnerships & M&A deals

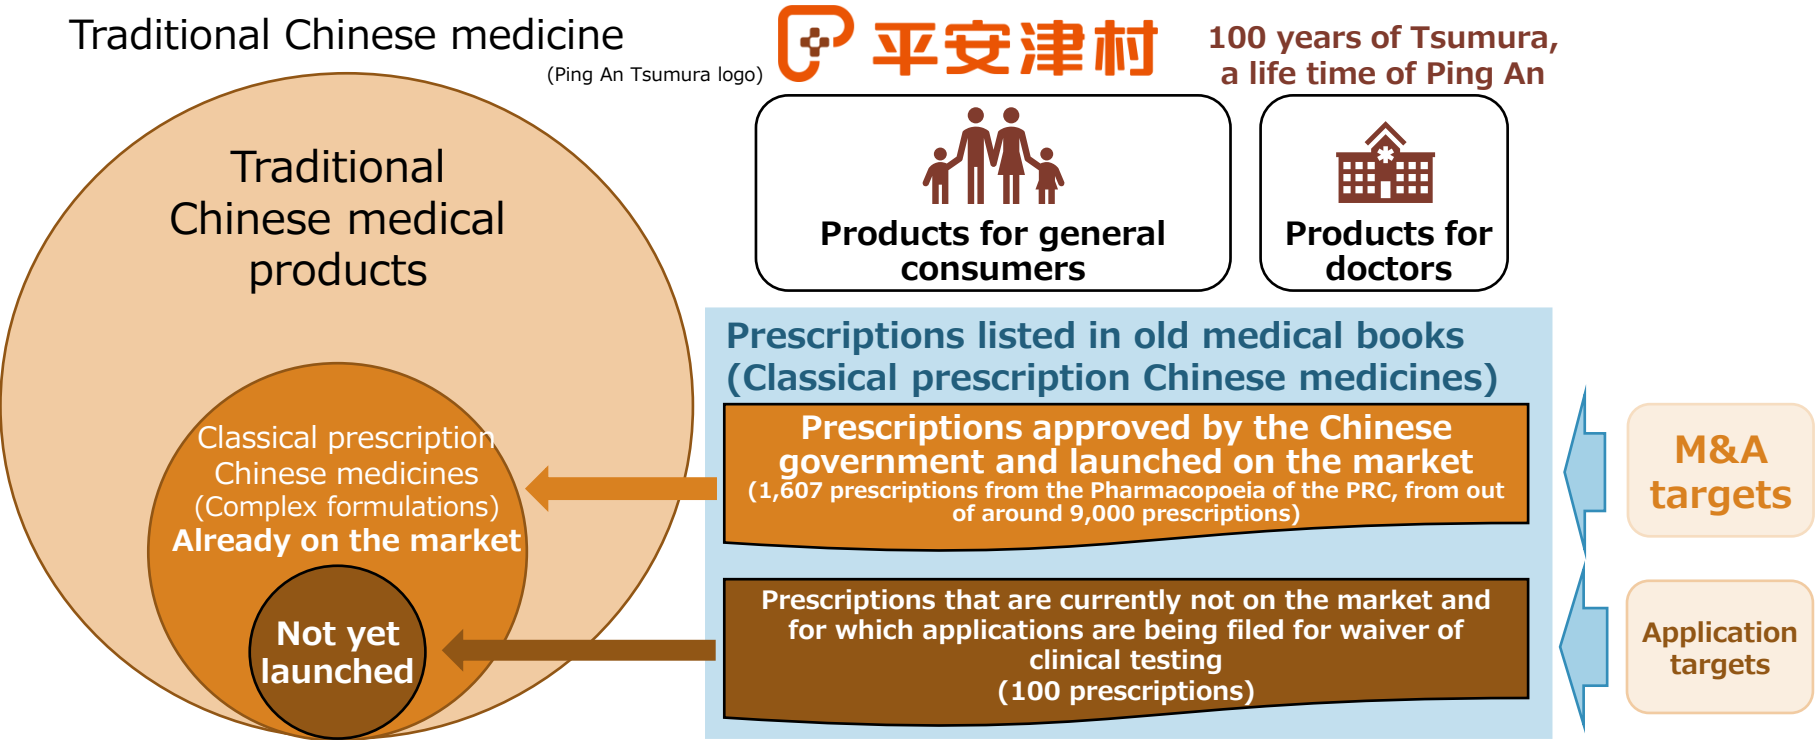

It is of utmost importance that we have the same management philosophy and quality policy, and that we take the majority.

- (1) Companies exceeding a certain scale
- (2) Companies that are leaders in pharmaceutical formulas and traditional Chinese medicinal formulas
- (3) Companies with formulas that resemble the Kampo products we are currently manufacturing

Formulation platform business vision: Envisage sales in China of 7.0 billion yuan (roughly ¥119.0 billion)

 **Aim to become a traditional Chinese medicine company that is trusted by the citizens of China by promoting Ping An-Tsumura brand products**

Business that places focus on classical prescription Chinese medicine prescriptions
(Originating from prescriptions listed in old medical books)

TSUMURA & CO.

Quality
Technology
Information

Production and sales of high-quality Kampo developed based on advanced production and analysis technologies cultivated over more than a century

- ◆ Assay technology that conforms to the properties of crude drugs
(Residual agrochemicals, toxic mold, microbes)
- ◆ Technology to identify botanical origins based on diverse crude drug and plant specimens (DNA analysis, classification)
- ◆ Technology to isolate and refine crude drug compounds
(Supply reference standard, standard-setting)
- ◆ Applied to cultivation and processing technology based on test results
(Improve quality of crude drugs)

中国平安 PINGAN

Comprehensive strength
in finance & IT,

Ex: Forest and water conservation (nature preservation)

Ex: Develop cultivation of wild crude drugs (environmental preservation, recycling-oriented society)

Cultivation in poor areas using the Ping An Tsumura crude drug platform

Ex: Successful case of Chinese rhubarb (da-huang) cultivation (contribution to local economy and job creation)

Impoverished areas (mountainous area)
Poor housing
Inadequate water and sewerage systems
Low income and impoverished farmers
Ethnic minorities have difficulty finding jobs

Contribution to the local economy
Housing maintenance
Safe drinking water and toilet
Stable income for farmers
Create jobs

Co-creation with Yubari Tsumura's "Harunire no Sato," a social welfare corporation

Ex: Crude drug cultivation at "Temiru Farm" in Ishikari City, Hokkaido

Perilla herb cultivation

High-quality perilla herb cultivation
Top-level processing technology
Boost level of skill acquisition
Continued employment in crude drug cultivation

Poria
Cultivation research

Indoor bukuryo cultivation research
Applications for sawdust substrate cultivation technology
Establishment of cultivation technology infrastructure
Research for commercialization

Origin of Kampo medicine

Kampo medicine is a traditional medicine unique to Japan

Traditional Chinese medicine was introduced to Japan in the 5th and 6th centuries

Traditional Chinese medicine developed as Kampo medicine by the Edo period

Dutch Medicine: Orchid
Japanese Traditional Medicine: Kampo

Natural Healing Power

Kampo medicine uses the natural healing powers that the body originally equipped with to maintain a person's health.

The mind and body are one

The entire body, both mentally and physically, is perceived and the body's balance.

“Different treatment for same diseases”
“Same treatment for different diseases”

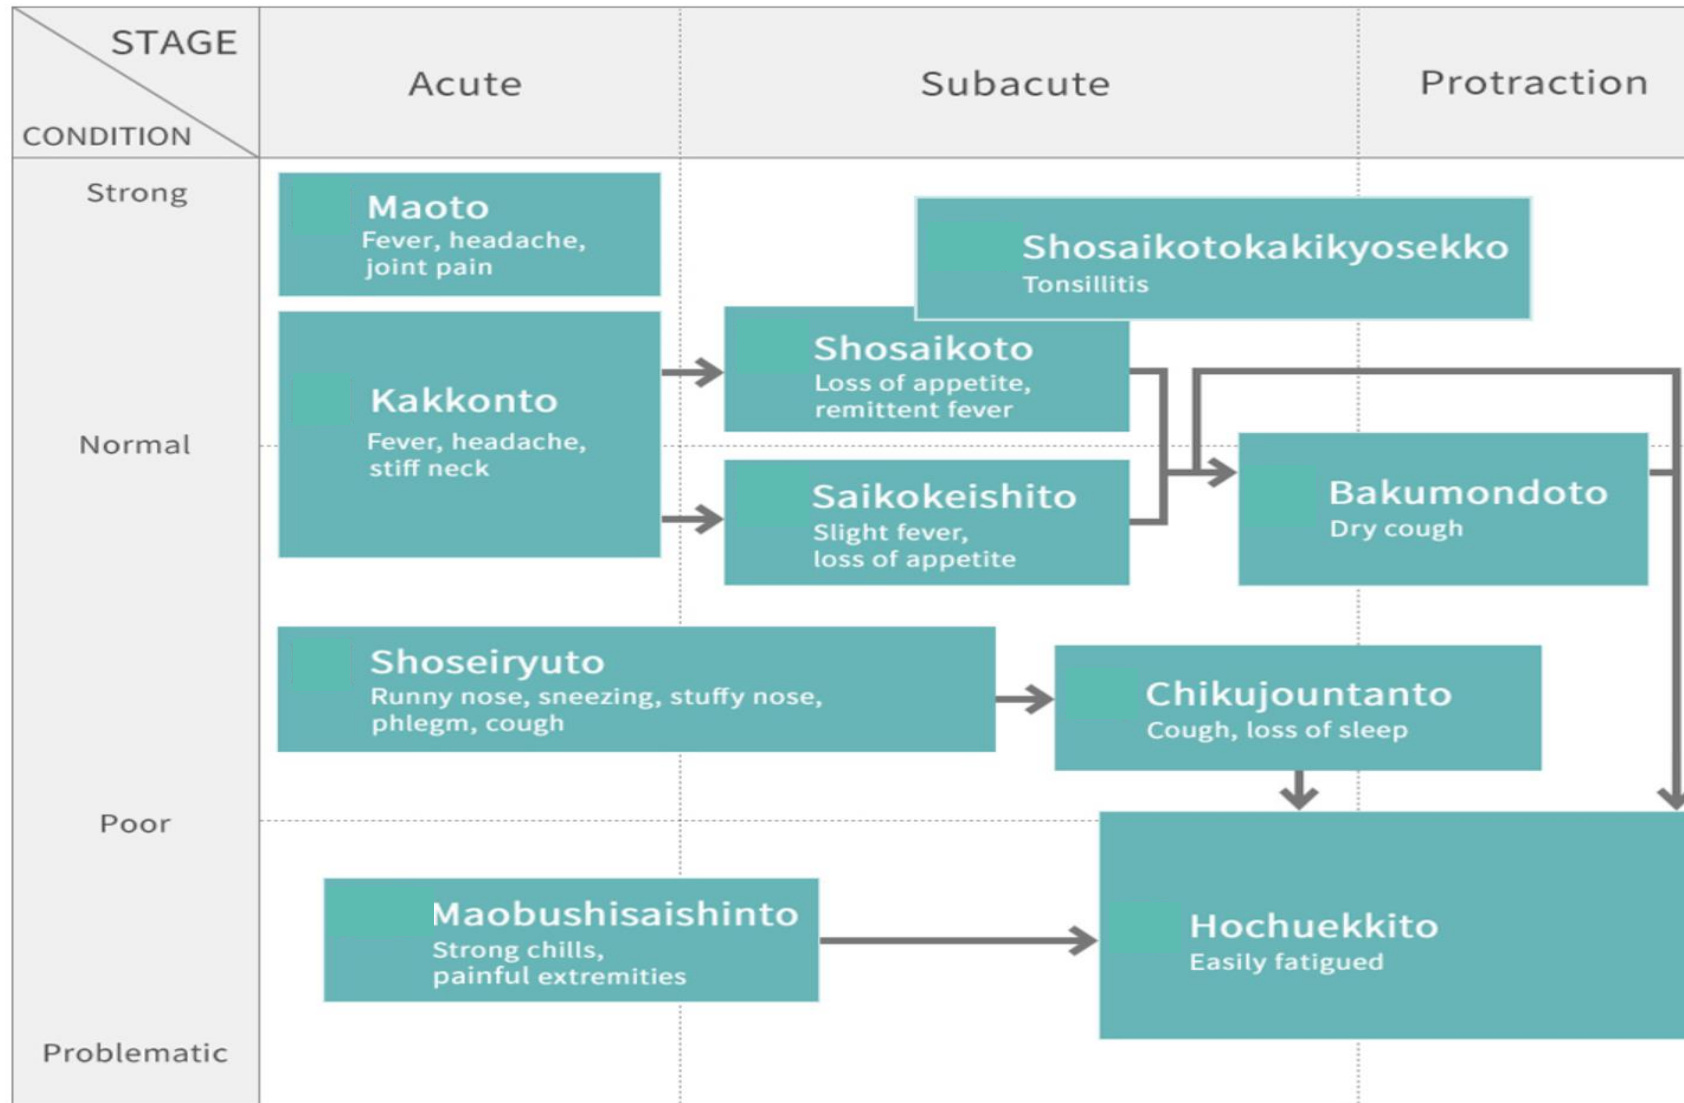

Treat the same illness with different prescriptions by depending on each person / Treat the different diseases with same prescriptions

【The best medical care】

- ✓ East and west does not matter when it comes to treating a person's illness.
- ✓ Treatment that takes advantage of each medicines.
- ✓ Western medicine licensed doctor learns kampo medicine and prescribes Kampo formulations.

Different treatment for same diseases : Prescription Kampo formulations for 「colds」

Source: Kunio Matsuda. ABC of Kampo treatment

Same treatment for different diseases : Kakkonto is a cold medicine?

Kakkonto

Source : Shang Hang Lun
